

THE MONTANA TOBACCO QUIT LINE IS NOW OFFERING CHANTIX

STEPS FOR CLIENT

1. Make an appointment with your physician and let them know that you are interested in Chantix.
2. Physician will fax prescription to Ridgeway Pharmacy (mail order) (406) 642-6050.
3. Client will send \$25 co-pay to Ridgeway Pharmacy via check, debit card or credit card.
Ridgeway Pharmacy
2824 Hwy 93 N
Victor, MT 59875
(406) 642-6040
4. Client will then call the Montana Tobacco Quit Line at 1-800-QUIT-NOW (1-800-784-8669) and will complete initial 10-15 minute enrollment session. *In most cases client can expect to receive Chantix in the mail within 2 business days of completion of steps 1-4. \$25 co-pay must be received before the medication is sent.
5. In order to receive the second month refill, client must complete two additional coaching sessions within the first three weeks of taking Chantix and submit the \$25 co-pay to Ridgeway.
6. The client then must complete another two coaching sessions by the end of week seven to receive their last month of Chantix and submit the \$25 co-pay to Ridgeway.

MONTANA TOBACCO

The Montana Quit Line
1-800-QUIT-NOW (1-800-784-8669)

HOURS:

Monday-Friday 7am to 9 pm
Saturday-Sunday 8 am to 4:30 pm

WHAT HAPPENS WHEN I CALL?

- You can talk with an experienced and caring Quit Coach who will help you quit using tobacco.
- Up to 5 coaching sessions may be scheduled at convenient times for you.
- You will receive a personalized quit plan, educational materials on quitting, and a list of local tobacco cessation programs.
- In addition, if you are age 18 or over and enroll in the coaching program, you may be eligible to receive a cessation medication. The Montana Tobacco Quit Line offers 4 smoking cessation medications. A Quit Coach can help you determine which medication will work the best for you.
- The cessation medications available are Chantix and Nicotine Replacement Therapy including patches, gum, or lozenges.

The logo for Chantix, featuring the word "CHANTIX" in a bold, blue, sans-serif font. A small yellow and green graphic element is positioned below the "I" in "CHANTIX".

Chantix, a prescription medication, is now available at a reduced cost. If prescribed by your health care provider, you may be eligible for up to a 3 month supply of Chantix for a monthly co-pay of \$25.

IMPORTANT PRODUCT INFORMATION

- CHANTIX is a cessation medication to help adults stop smoking. You may benefit from quit-smoking support programs and/or counseling during your quit attempt. It is possible that you might slip up and smoke while taking CHANTIX. If you do, you can stay on CHANTIX and keep trying to quit.
- The most common side effects include nausea (30%), trouble sleeping, changes in dreaming, constipation, gas and/or vomiting. If you have side effects that bother you or do not go away, tell your physician.
- CHANTIX should not be taken with other cessation medications. You may need a lower dose of CHANTIX if you have kidney problems or are receiving dialysis.
- Before starting CHANTIX, tell your physician if you are pregnant, plan to become pregnant, or if you have ever had depression or other mental health problems. Also, tell your physician if you take insulin, asthma medications or blood thinners. Medications like these may work differently when you quit smoking.
